

Title: Water bottle filling station for Johnson Fieldhouse

Whereas, many people that visit the Johnson Fieldhouse use refillable water bottles;

Whereas, the entryway has two water fountains without water bottle filling stations installed;

Whereas, adding one water bottle filling station would make it easier for students using refillable water bottles to re-fill them;

Whereas, this would encourage the use of refillable water bottles over plastic water bottles in the facility;

Whereas, reducing the amount of plastic water bottle waste aids the university's sustainability goals;

Whereas, the sustainability council has discussed and passed the idea of allocating Green Fee funds for the installation of one water bottle filling station in the entryway of the Johnson Fieldhouse that was quoted for \$2,332.30 by facilities;

Be it therefore resolved, we, the U.S.S. of the S.S.A. approve the allocation of \$2,332.30 for the purchase and installation of a hi/low bottle filler in the entryway of the Johnson Fieldhouse.

Be it further resolved, this motion be distributed to Erik Johnson, Mackenzie Stutzman, Sarah Rykal, and Dhani Cole.
